

Marinedì international illustration award

"Sailors"

Marina di Chiavari Calata Ovest is proud to announce the first edition of : "Marinedì international award". This award has the aim of enhancing the territory that hosts it, its history and its beauties, in collaboration with the Spazio Mec Association.

Spazio Mec organizes courses and artistic events with professionals of the sector inviting illustrators, professionals and non-professionals, to interpret, according to their technique and inspiration, an artwork dedicated to a theme that will be different every year.

For the first year the theme chosen is "Sailors".

Sailors are literally those who travel by sea to a destination, or a port. In life we are all sailors wandering the sea, in search of our own safe harbour. Each of us has an island in their heart, a goal to reach, a landing place waiting to be conquered.

The island for Ulysses was Ithaca, this was his destination. It was everything for him: his love, his duty, his social and political commitment, his refreshment, his greatest wealth and the image of his inner world.

Each artist is free to interpret the assigned theme as he wishes, by illustrating a canvas following his own free interpretation.
